

# BROAD APPLICATION RANGE

## AMMANN APF VIBRATORY PLATES

Versatility is a key benefit of all Ammann APF plates. An optional Vulcolan mat, which can be installed without a single tool, provides quick adjustment when working with paving stones. A sprinkling system enables work on asphalt. Ammann plates lead the industry in lowest hand-arm vibration (HAV) levels. The levels are so minimal that the machines will remain in compliance with the strictest regulations for many years to come.

### Water sprinkling system

- The tank and sprinkler are combined into a single unit that can be added or removed without any tools, or even adjustment of a single screw.
- The sprinklers provide comprehensive surface coverage and can be activated by simply turning the bar.
- The 10-litre tanks extend intervals between fillings.

### Highly manoeuvrable

- The powerful forward movement of the plates boosts productivity and enables consistent results, even on steep grades.
- The base plate is designed to add forward-moving efficiency.
- The handle and grip nearer the base plate help the operator manoeuvre the compactor in tight spaces.
